Additional Policy

Berkley Cyber Risk Firstsm

- Berkley Cyber Risk Solutions has developed a separate policy to provide more robust and affordable first party coverage to compliment Berkley DP's existing coverage offering. This is a separate policy with separate limits of liability.

Disclaimer: Products and services are provided by one or more of insurance company subsidiaries of W. R. Berkley Corporation. Not all products and services are available in every jurisdiction, and the precise coverage afforded by any insurer is subject to the actual terms and conditions of the policies as issued.

Risk Management Program

Berkley DP's comprehensive risk management program focuses on fundamental areas that impact professional liability, such as scope, client/project selection, contracts and legal issues. What's more, our practice management resources address key areas of design practice and project delivery.

BDP Risk Learning Management System (LMS)

The BDP Risk Portal provides 24/7 online access to practical, relevant and concise content from select subject matter experts, designed to help our policyholders avoid professional liability claims, improve management practices and enhance business performance.

- Risk Management Plan development recommendations to meet the needs of each individual design firm
- Templates, checklists and sample forms to facilitate implementation of the Risk Management Plan and assist in related project delivery and management tasks
- Contract Review Guidelines with concise references for business and legal insurability issues to assist in negotiation and team communication of important contract terms
- On-demand courses offer learning units and risk management premium credits
- Resources and advice on current and emerging issues in design practice including BIM, IPD, sustainability, P3, international practice and cyber liability
- The robust BDP Risk LMS search function puts relevant information and answers at your fingertips
- Multiple media options: webinars, presentations, case studies and papers support different learning styles
